EVENTS THIS EVENING. Entertainment at Opera House,

HAWAIIAN CAMERA CLUB.

The exhibition by the members of the Hawaiian Camera Club last evening at their rooms, Alakea street, was a most successful one in every respect. The rooms are fitted up in a very neat manner. The large room was occupied by work done by members only. These pictures had been selected by the judges. Some of the bromide enlargements were really excellent, and could not fail to attract attention. Several albumen silver prints, and other pictures taken by the instantaneous process showed superior work. The members are to be congratulated upon their fine exhibition. It is open to the public today and we advise all to embrace the opportunity of visiting the rooms during the afternoon and evening. Many people were there this morning.

A FALSE PUBLICATION. EDITOR BULLETIN: -- Your scissoring from the Boston Transcript in yesterday's BULLETIN relating to alcohol and longevity is very misleading and damaging to the interests of truth. The article sets forth that a decidedly intemperate drinker-a sot, has the chances of living two years longer than a total abstainer. Such reasoning is absurd; the leading physicians of the world to-day say that the human system has no need of alcohol, and if taken, exerts all its powers to throw off the foreign or poisonous element. Everybody knows that a drunkard shortens his life by reason of his drinking

habits. The article in question was published by many Eastern papers during the Prohibitory Amendment campaigns in Massachusetts, Pennsylvania and other States. The New York "Voice," doubting the verac-ity of the statements contained in the article, forwarded it to the British Medical Association for confirmation and learned that the figures and classes had been mixed. The liquor dealers had changed the original report and forwarded it around the country to mislead the public and to aid them in defeating the proposed amendment.

THE MECHANICS' UNION.

Adoption of the Revisid Pistform.

The weekly meeting of the Mechanics' and Workingmen's Political THE rain poured down in torrents | Protective Union was opened about 7:30 o'clock yesterday evening by Mr. Daniel McKenzie, Vice-President, A large number of new members was elected by a single vote. Mr. John Phillips, President, arriving at the close of routine business, assumed the chair, and Mr. W. H. Stone, Secretary, read the platform, revised during the week by the executive committee in the form following, Mr. Walter Brash reading the Hawaiian version:

"Whereas, -The workingmen feel that they are not represented either in the Executive or Legislative branches of the National Government, and that their interests and reasonable wishes are ignored and wholly disregarded in both the making and administration of the laws of the kingdom, and,

"Whereas,-They believe that in justice to themselves and their families dependent on them for support, they should take such united action as may seem necessary to give effect to their views in the Councils of the

"Therefore, In Convention assembled, we deem it fitting that a declaration be made of the Principles of the Mechanics' and Workingmen's Political Protective Union of the Hawaiian Islands:

"WE THEREFORE DECLARE-That the object of the Union is to aid and support all lawful political measures which will advance the interests of the workingmen and mechanics of this country and thus enhance the public good.

"We will accordingly adhere to the following platform:

"First: That the Cabinet Ministers and all the chief officers of Departments under the Executive be elected by the people, and that excessive salaries be reduced.

"Secondly: That the property and income qualifications of voters for Nobles be abolished. "Thirdly: That it is the earnest wish of the Union that such suitable restrictive legislation be initiated without delay as may be necessary to control the introduction of immigrant labor and prevent the bringing to these shores of pagan hordes to be eventually turned loose upon the country and crowd the natives and the foreign mechanic and work-ingman out of their means of livelihood and employment.

"Fourthly: That laws be enacted whereby people may derive greater benefits than are now enjoyed under the present Homestead Act.

"Fifthly: That we will strongly support a liberal policy with regard to education and public improvements having in view the development of the resources of the country by opening up ready and convenient communication with its various parts, roads, bridges, harbors, the deepening of the channel and harbor of Honolulu, building of new wharves, giving greater facilities to foreign and domestic commerce, as well as the encouragement of such

to the laboring classes and people of small means." Mr. Robert More moved, secondby Mr. John Kaulahea, that the platform as read be adopted. The motion was immediately put and

industries as will give employment

carried, only two voices being heard in the negative. Mr. J. Emmeluth said he wished to resign from the Union if the platform was to be passed in this sum-

mary manner.

The President remarked that he did not think it could be called "summary," after what passed at last meeting. He did not know that it was to be railroaded through. It was practically the same platform as was there last night. The members of the executive committee considered it was just what this Union wanted and could not make material changes. If Mr. Emmeluth could not support it the Union would be the sufferer just to that extent. There was no intention on the part of the committee to railroad it through; everything was done honestly and above board. (Ap-

plause.) Mr. More called for a division so that it could be seen how strong the Union was on this matter.

Mr. P. O'Sullivan considered Mr. Emmeluth had done nothing but kicking and he was glad that he was going to withdraw. He was appointed on the committee to make laws at the start, but never appeared at the meetings of committee.

Mr. Crowley said he had known Mr. Emmeluth for the last eight years and it was the first time that he ever heard him accused of neglect of duty.

Mr. Emmeluth admitted he was appointed on the committee to make a constitution and bylaws, but the chairman never gave him any intimation of meetings, and the first he knew of the work was when Mr. Godfrey brought him the laws to sign. He never on principle put his name to anything that he did not have his fluger in the pie, and that was why his name did not appear on that document. He had gone in at first for a special session of the Legislature. He could never consider the platform as truly representative of the workingmen's interests, therefore he resigned his membership, There were things in it that he could not support, and very serious concerns of this community that were

New Free Tontine Policy

Equitable Life Assurance Society

A SIMPLE PROMISE TO PAY.

[From the NEW YORK TIMEs, June 22, 1889.]

tions on the back.

The Equitable Life Assurance Society has adopted a new form of policy which, like a bank draft, is a simple promise to pay without condi-

[From the Cancago-Investigator]

Always on the alert, and ever auxious to give the public the most advantageous contract in life insurance, the Equitable Life Assurance Society of New York has, in the past, made many advances on old methods and has been the means to liberalize life assurance in a greater degree perhaps, than any other organization. It is not at all surprising, therefore, that this great company now comes before the people with a new contract, the like of which has not before been known in life insurance.

[From the Kentucky Register, Richmond, Ky., June 28, 1883.]

The Equitable Life Assurance Society has, in the past, done more to create and maintain confidence in life assurance than any other company. Consequently its business is larger than that of any of its competitors. Furthermore, it has now taken a step which practically sweeps every objection of the character referred to out of the way. The result, undoubtedly, will be that thousands of men who have heretofore lacked confidence in life assurance, will examine the new policy offered by the Equitable, and assure their lives forthwith.

[From the Boston Post.]

This company has done more than any other to simplify the assurance contract, and to maintain public confidence in life assurance.

[From the Pacific Underwriter, San Francisco, July 1, 1889.]

The Equitable has already established a world-wide reputation for liberal dealings with its policy-holders and for its prompt settlement of all legitimate claims against it, and this new policy cannot fail to enhance its reputation for enterprise and progressiveness in dealing with the subject of life assurance.
